

# Backup Alarm Provides Security, Easy Installation

Backup alarms are a simple necessity for every truck on the road today. Alliance Truck Parts' new backup alarm is not only durable and reliable but easy to install on virtually any truck.

## It's durable:

- Waterproof construction
- Rugged ABS plastic withstands pressure washing, harsh environments, even impacts
- Stainless steel terminals resist corrosion
- Built-in reverse polarity protection
- Interior solid-state electronics are encapsulated in epoxy

## It's easy to install:

- Compact size
- Universal mounting design
- Very low current requirements make it an easy addition to electrical systems already loaded with accessories

## Other benefits:

- Conforms to SAEJ994 standards
- Housing is designed to focus 97-decible beep to the rear, where it's most needed
- Single part number (ABP/N55-BU2000C) makes it easy to order
- 1-year/unlimited-mile nationwide warranty\*
