COMPLETE IN-CAB ENTERTAINMENT

RADIOS BROUGHT TO MARKET BY

PANA-PACIFIC

Addressing mobility's toughest challenges.

We believe that mobility has the power to change the world and Aptiv has the power to change mobility. And we know how to get it done. At Aptiv, we're delivering the software capabilities, advanced computing platforms and networking architecture that makes mobility work.

Aptiv is a global technology leader, with more than 160,000 people across 126 manufacturing facilities and 12 major technical centers worldwide. With a presence in 44 countries, we address mobility's toughest challenges through our deep software and systems integration expertise, delivering market relevant solutions for our customers. Aptiv holds a leading position as a technology

company innovating at the intersection of disruptive trends in the mobility industries. We use our portfolio of technologies to make vehicles safer, greener and more connected and enable the future of mobility. Aptiv commits to realize our mission, to live our core values, and to continuously improve in making our products and facilities more sustainable.

Aptiv's unique position as the only provider of the brain (software and compute) and nervous system (power and data distribution) is allowing us to conceive, specify and deliver the advanced vehicle architectures of the future.

BLUETOOTH TECHNOLOGY

QUIETING ACOUSTICS FOR CLARITY

Noise Suppression

Before and after screen shot of Noise suppression.

WIRELESS MUSIC STREAMING

Bluetooth® technology lets two devices communicate wirelessly with each other. By installing an Aptiv Bluetooth® integrated audio system in your vehicle, you will hear a caller's voice over your vehicle speakers, see incoming call information on your radio display, and make or receive phone calls without touching your phone. Most importantly, you can drive safely by keeping your eyes on the road and your hands on the wheel while talking to callers.

Aptiv Bluetooth® integrated radios can wirelessly stream music - allowing you to enjoy your tunes, without any cords or cables dangling in your cab. Wireless streaming makes it convenient to play streaming services or whatever you have stored on your smart device without actually having to plug in.

MID-RANGE RADIO

APTIV | PP107199

Heavy-Duty AM / FM / WB
with Front Panel USB Port

PP107199 RADIO PRODUCT FEATURES

Front Panel USB Port - gives a direct connect location for memory devices with USB interface, to play stored music and/or charge the device and have iPod® control through the radio · PA Function (PA microphone and cable sold separately) · Back-lit Display Lighting - GREEN

Weather Band · SAE J1455/J1939 · Compliant · ISO Connector · Front Aux Input (Music Port) · Rear Aux Input · Quartz Alarm Clock · Output Power - 18W x 4 Channels · Sound Quality (EQ) Function to select the sound type (Pop, Rock, Country, News, Jazz, Classical

or Manual) · Separate Bass, Mid, Treble, Balance and Fader Control · 6 AM / 12 FM Radio Preset Buttons · Auto Store Memory · Auto Baud Rate allows radio to auto detect the correct CAN bus baud rate to use at power up (250K or 500K) · VF Dot Matrix Display with three lines of text - for more information on the screen · White Fakra AM / FM Antenna Connector · Motorola to Fakra Adapter Cable - AM / FM radio antenna adapter Fakra Jack Code B to Motorola DIN socket connector, six-inch cable INCLUDED

APTIV RADIOS | CONNECTIVITY

MOTOROLA TO FAKRA ADAPTER CABLE - AM / FM Radio Antenna Adapter Fakra Jack Code B to Motorola DIN socket connector six-inch cable. Adapter cable included with each Aptiv radio model until OEM truck manufacturers change wiring from Motorola to Fakra. OEM truck manufacturers will be implementing more antennas with Fakra connectors so the Aptiv radios are designed to be compatible now and in the future.

MACK HARNESS GUIDE

Truck Build Date	9/2008 to 8/15/2014
Harness	Applications for Mack
PP205433 22351684	Mack models WITHOUT reverse mute feature
PP205499 22351686	Mack models WITH reverse mute feature

Note: Upgrading a truck radio to one of these new Aptiv Mack radios will create a vehicle fault code that will not affect drive-ability, but will be present when the vehicle is serviced by a technician. If the technician is unaware of the situation creating the fault code (newly installed radio) it could result in unneeded vehicle diagnostics.

VOLVO

VOLVO HARNESS GUIDE

Truck Build Date	9/2008 to 11/10/2014
Harness	Applications for Volvo
PP205433 22351684	Volvo Day Cab models WITHOUT options*1
PP205432 22351682	Volvo Day Cab models WITH options*2
PP205655 22473834	Volvo Sleeper models with LECM (DRSA) - This will allow the radio to be powered on from the Sleeper*2

*1 If a Volvo Day Cab is equipped with any of the features listed below, the vehicle is considered to have options and will require the harness designated (above) for Volvo Day Cab models WITH options: Electronic Air Dryer, Collision Avoidance, Lane Departure Warning, Tire Pressure Monitoring, Electronic Controlled Suspension, Heated Seats, I-Shift Transmission

2 In order to retain the remote on/ off feature using the bunk controls, a new LECM (refer to current model to determine which one is needed) and an additional wiring harness (refer to truck configuration to determine which one is needed) are required. If this function is not needed or wanted, then only one of the above mentioned harnesses () will be needed.

New LECM (BASE) 22382005	L4 Harness: 22456394
New LECM (HIGH) 22382004	L5H2 Harness: 22456395
L3 Harness: 22456393	L5H4 Harness: 22471335

Note: Upgrading a truck radio to one of these new Aptiv Volvo radios will create a vehicle fault code that will not affect drive-ability, but will be present when the vehicle is serviced by a technician. If the technician is unaware of the situation creating the fault code (newly installed radio) it could result in unneeded vehicle diagnostics.

PP207236

MOTOROLA TO FAKRA ADAPTOR CABLE

AM/FM radio antenna adaptor cable (6") features Fakra Jack Code B to Motorola DIN socket connector. NOTE: This adaptor will be included with each Aptiv radio until OEM truck manufacturers change wiring from Motorola to Fakra.

peiker
people. innovation. ingenuity.

PP604240

BLUETOOTH MICROPHONE KIT

Designed to be secured to a surface by use of double-sided adhesive tape (no need for any sort of hole in the vehicle instrument panel). The mic is 3/4" wide by 15/8" tall. Includes a 7.5-foot cable with connector that plugs into the back of the radio.

peiker
people. innovation. ingenuity.

PP603846

BLUETOOTH MICROPHONE KIT

Designed to fit into a standard 1" wide by 2" tall switch mounting hole in the instrument panel of commercial vehicles. Includes a 12-foot cable with connector that plugs into the back of the radio.

((SiriusXM))

SRTMM-02

SIRIUSXM SATELLITE RADIO MIRROR-MOUNT TRUCK ANTENNA

Certified for use with all SiriusXM receivers. The waterproof, durable, magnetic antenna structure is designed to be installed on the outside of a commercial vehicle (mirror-mount). Includes a 14-foot RG-174 cable with custom connector to fit Aptiv radios. The receiving frequency is 2.3GHz.

((SiriusXM))

PP802458

SIRIUSXM SATELLITE RADIO MIRROR-MOUNT ANTENNA KIT

Certified for use with all SiriusXM receivers. The antenna mounts on to vehicle mirror. Includes an 8-foot cable terminated with a right-angle SMB connector with a Fakra plastic housing, to connect to the radio. The receiving frequency is 2.3GHz. This kit also includes a six-foot extension cable, mounting bracket and hardware.

• APTIV •

PP603988

HANDHELD REMOTE CONTROL

Designed to control all the major radio functions from a close distance. The remote control only works with Aptiv IR remote compatible radio models. Radio part numbers: PP107201, PP107202, PP107247, PP107214 (24 Volt model), PP107224 and PP107230.

PP604802

PA MICROPHONE

Designed to work with PA capable radios. Features rotary volume control and 5 pin connector.

PP207053

PA MICROPHONE INPUT CABLE THOMAS BUILT BUSES

Designed to work with PA capable radios only. 36" long microphone to PA circuit board cable.

PP204437

DUAL PA MICROPHONE EXTENSION CABLE THOMAS BUILT BUSES

Y-cable extension to connect two PA microphones to a PA capable radio. The cable connects a microphone close to the radio (8" long lead) and another microphone further away (27" long lead).
