

Important Info – December 2024

Haldex Brake Products S-ABA Automatic Brake Adjusters

Attention Freightliner Dealers – Now is the Time to Move from Gunitite to Haldex.

With the recent decision by Accuride to cease Gunitite ABA operations effective January 1, 2025, the SAF-HOLLAND company would encourage our customers to turn to the Haldex brand of Automatic Brake Adjusters. A complete line of Haldex ABAs are offered for Trailer, Drive and Steer Axle applications with inventory available to fulfill orders. Daimler Corporate Parts team has increased Haldex SABA inventory to support the seamless transition.

S-ABA Series

The world's most trusted ABA design with a clearance-sensing adjustment feature delivers unmatched performance with long life.

Unique self-adjusting correct fit design with easy installation, improved performance and extended service life. S-ABA provides the proper lining-to-drum clearance, regardless of the control arm installation angle. This eliminates adjustment problems caused by incorrect installation.

If you have any questions or require additional product assistance, please contact your account manager or Haldex Customer Service at 816.891.2470.

Haldex S-ABA Decision Tree

GUNITITE PN	SPEC	APPLICATION	HALDEX S-ABA PN
