

DPF

DIESEL PARTICULATE FILTERS

 MAINTENANCE

FEATURES AND BENEFITS

Detroit Reman's proprietary Liquid Cleaning Process is proven to consistently remove 95% or more of accumulated ash. All Detroit Reman DPFs last the original service interval specified for your vehicle without compromising performance. The exchange program ensures DPFs are ready to install and are kitted with the necessary clamps & gaskets.

- **DEMAND VALUE:** Detroit Reman DPFs ensure performance, fuel economy, and uptime at a lower cost.
- **FULL SERVICE INTERVAL:** Detroit Reman DPFs last for 300,000 - 500,000 miles prior to hitting the next cleaning interval contrary to less effective alternatives, which typically recommend another cleaning after only 100,000 miles.
- **CLAMPS AND GASKETS INCLUDED:** Everything you need is included without hidden costs.
- **FAST SERVICE:** DPFs are readily available for installation; thereby increasing uptime. This program is especially attractive for fleets looking to reduce shipping & handling cost associated with DPF Maintenance alternatives.
- **ASSURED QUALITY STANDARD:** Detroit Reman's standardized Liquid Cleaning Process with trained operators ensures a minimum of 95% of ash is consistently removed, and OEM performance is maintained.
- **NATIONWIDE AVAILABILITY:** Over 800 authorized locations (including California) providing unmatched nationwide availability, and supporting our commitment to quality and performance for Detroit customers.
- **WARRANTY:** 1-year / unlimited miles
