

Built for Heavy Loads

When you're hauling the heaviest loads, you need equipment that won't let you down. Sampa USA's new Fifth Wheel is engineered for strength and reliability, keeping your truck and trailer securely connected, mile after mile.

Balanced, Safe, and Secure

Sampa's design ensures optimal weight distribution, giving your truck exceptional stability even with the most demanding hauls. Experience safer, more controlled rides wherever the road takes you.

Precision in Every Move

With its advanced design, the Sampa Fifth Wheel offers smooth and precise maneuvering—essential for long hauls and heavy-duty jobs where accuracy matters.

Key Features:

- **Rugged Durability:** Crafted from nodular graphite casting to withstand the toughest conditions.
- **Wear-Resistant Plate:** Extra durability to keep your fifth wheel in peak condition.
- **Easy Maintenance:** Effortless lubrication for quick upkeep.
- **Stress-Resistant:** Engineered to handle heavy loads without compromising performance.
- **Secure Locking Mechanism:** Ensures a tight, reliable connection every time.
- **Smooth Ride:** Specially designed rubber compound reduces vibrations for a smoother ride.
- **Adjustable for Convenience:** Quick and easy adjustments keep your gear in top shape.

Depend on Sampa USA's New Fifth Wheel.
