Product Highlights

Premium DRAC bearing and long-wearing friction liner for maximum reliability and long life

Low parts count for ease of installation and maintenance

High torque capable of turning larger fans for a range of application

Superior solution for some of the highest heat-under-hood applications

ISX12/ISX12-Gas	Cascadia-113, 114SD	302	HOR 99A9584-2	

Remanufactured option available for many fan drives. Replace the first 9 in the part number with a 7 to get the reman part number. (Ex: 99A8189 = 79A8189)

Features and Benefits

Two-speed operation greatly reduces the number of full fan speed engagements for longer life and less noise

Ideal for vocational applications or vehicles with little to no ram air

Premium DRAC bearing and long-wearing friction liner for maximum reliability and long life

Low parts count for ease of installation and maintenance

High torque capable of turning larger fans for a range of application

Superior solution for some of the highest heat-under-hood applications
