

PARTS C A P

Alliance Truck Parts Diesel Particulate Filters and Diesel Oxidation Catalysts

Alliance Truck Parts diesel particulate filters (DPFs) and diesel oxidation catalysts (DOC's) are engineered and manufactured to meet or exceed OEM specifications. In order to maintain OE fuel economy and regeneration performance it is important that your DPF meets factory backpressure and NO₂ conversion rates. Alliance DPFs do both, ensuring no drop in performance vs. an OE filter.

General Product Information

Detailed product description

Alliance Truck Parts diesel particulate filters (DPFs) are engineered and manufactured to meet or exceed OEM specifications. In order to maintain OE fuel economy and regeneration performance it is important that your DPF meets factory backpressure and NO2 conversion rates. Alliance DPFs do both, ensuring no drop in performance vs. an OE filter.

Warranty Information

1 year warranty
