Restore™/Restore™ Plus Heavy-Duty Coolant Cleaners

The safe and efficient way to clean heavy-duty cooling systems

Remove Contaminants Without Harm.

Once a cooling system is contaminated, water alone cannot clean the system. Fleetguard Restore and Restore Plus address a wide range of contamination without harming the metal surfaces, gaskets, hoses or plastic components of heavy-duty cooling systems.

Application/Performance Chart.

The choice of cleaner should be based on the cooling system problem to be addressed

Problem	Restore	Restore Plus
Silicate Gel	Excellent	Poor
Rust	Poor	Good
Scale	Poor	Excellent
Oil, Grease & Fuel	Excellent	Good
Solder Bloom	Poor	Good

Restore

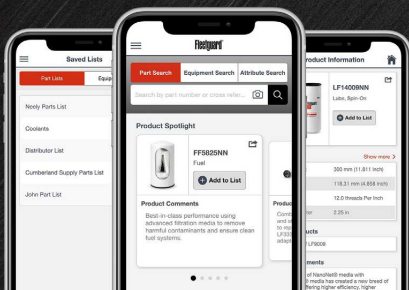

- Alkaline-based chelating cleaner particularly effective in cleaning silicate gel
- Highly effective in removal of oil and fuel contamination

Restore Plus

- Acid-based chelating cleaner
- Designed to remove heavy rust and scale deposits
- Can also remove oil contamination and solder bloom

Important:

Fleetguard Restore and Restore Plus contain NO antifreeze. Do not allow cooling system to freeze during cleaning operation!
