

NO COMPROMISES™

BUILT FOR EVERY APPLICATION.

When performance matters most, PFC Brakes delivers uncompromising braking solutions for the toughest severe-duty applications. Engineered with race-proven technology and built for the demands of commercial fleets, emergency vehicles, and heavy-duty transport, our products are designed to perform under extreme heat, heavy loads, and constant stop-and-go conditions.

Our aftermarket solutions integrate seamlessly with existing vehicle systems, ensuring a consistent braking feel and reliable performance throughout the lifespan of the brake pads. By focusing on high-quality materials, stringent production standards, and thorough real-world testing, PFC Brakes equips operators with braking products capable of handling the daily challenges of commercial transportation. PFC Brakes is dedicated to supporting the vehicles that keep communities moving. With 100% copper-compliant friction materials and a legacy

rooted in championship-winning performance, PFC continues to deliver braking solutions that meet the safety and environmental standards of today's heavy-duty transportation industry.

Get To Know PFC Brakes Products:

- 100% AMERICAN MADE
- 100% COPPER COMPLIANT
- LOWER COST PER MILE FOR SEVERE-DUTY FLEETS

It all comes down to what sets PFC Brakes apart from the competition:

LIGHT-DUTY

PFC BRAKES, CARBON METALLIC FRICTION COMPOUNDS PROVIDE EXCEPTIONAL STOPPING POWER, FADE RESISTANCE AND LONG LIFE REQUIREMENTS DESIGNED FOR SEVERE DUTY APPLICATIONS.

MEDIUM-DUTY REPLACEMENT DISC

**THE ABS TONE RING IS
THERMALLY ISOLATED AND
CORROSION PROTECTED TO
SURVIVE THE HARSH
WINTERS.**

NO ABS LIGHTS.
