own Shear-Seal® technology - designed to provide optimum performance in maintaining consistent vehicle ride height, repeatability and air consumption control while performing billions of cycles in harsh environments. Whether you're designing a new system or looking for a direct replacement, Barksdale has the answer.

Barksdale Website (https://www.barksdale.com/en/markets/transportation/)

Product Highlights

Shear-Seal® Technology

The Shear-Seal® technology is based on the sliding of two precisely machined metal sealing surfaces across each other, creating a zero-leak leak seal. Media passes through the center of the seals, rather than across the seal surface, preventing contamination from entering the seal areas. As the valve shifts, the wiping action of the polished metal seals pushes away debris.

Bringing zero-leakage, long life Shear-Seal® technology to commercial vehicle ride control applications changed the industry and made Barksdale Controls the leader in suspension control technology.

Standard Valve

Shear-Seal® Technology for Zero Leak Lapped rotor and long-wear pressure seals
Tapered flow curve for lower air consumption
Precise dead band for accurate suspension height
Multiple flow rates available
Compact design for difficult installations

Cab Suspension Valve

Shear-Seal® Technology for Zero Leak
Lapped rotor and long-wear pressure seals
Standard push to connect tube fittings
Tapered flow curve for lower air consumption
Precise dead band for accurate suspension height
Multiple flow rates available

Suspension Valve with Integral Dump

Shear-Seal® Technology for Zero Leak Lapped rotor and long-wear pressure seals Dump valve integrated into suspension valve

Legal Notice & Privacy Policy

To ensure accurate response between the height control valve and the truck's suspension, Barksdale provides custom linkages. The various available link lengths allow the Barksdale Height Control Valve to be utilized in numerous configurations and to be a direct replacement for many height control valve manufacturers.

Top Movers - Barksdale Air Suspension Valves

Part Number	Part Description
BKS KD2205	VALVE-AIR BAG LEVELING, SUSPENS
BKS KD2204	VALVE-HEIGHT CONTROL W/O DUMP
BKS KD2261	VALVE
BKS KD2510	LEVELING VALVE - CAB MOUNT,P3
BKS 32005 3	LINKAGE-SUSPENSION,40KAIRLINER
BKS KD2262	VALVE, AIR SUSPENSION
BKS KD2290	VALVE
BKS KD2168	KIT FOR CAB VALVE
BKS KD2294	VALVE
BKS KD2291	VALVE

General Product Information

Direct Replacement Valve Kits

Shear-Seal® Technology available in bolt on all makes service kits for:

Haldex/Neway

Hadley

Wabco

Knorr Bremse
