

Performance that drives your success

# ATRO Polyurethane Bushings

#### **Product Highlights**

Solve heavy truck suspension problems with ATRO rotating pin polyurethane bushings. Rubber bushings fail due to bushing wind-up, dry-out, cracking, chemical damage, and fatigue under repeated stress.

ATRO's polyurethane delivers superior durability and reliability and won't fail when exposed to chemicals or weather.

Our exclusive rotating pin design has a full 360-degrees of rotation to make installations faster and simpler.

Featured Product: PB46-26268 Pivot Bushing (https://atrobushing.com/product/pb46-26268)

Engineered specifically to counter the problem of spring eye wear and "walk-out" in leaf spring applications.

#### What it does:

- The free-rotating pin prevents the entire bushing from turning inside the spring eye, eliminating "walk-out" wear and damage to the leaf spring eye housing.
- A flanged outer sleeve limits lateral travel, giving additional containment and stability.
- It is applicable to multiple heavy-duty suspension systems (e.g. FASII/Airliner, International Corporate Air/IROS, KW AG400L, Peterbilt New Low Mount Air Leaf)

Because the rotating pin handles torsion, the bushing remains stable in both static and dynamic loading, preserving integrity and alignment over many cycles.

#### **Additional Bushing Solutions from ATRO**

ATRO offers a full suite of polyurethane bushings for heavy-truck suspension systems:

### **Warranty Information**

## ATRO products are covered by a 3 Year Parts Warranty with the following exceptions:

ATRO Item Type	Warranty Period
Steer King SKS Series Steel Spiral Bushing King Pin Kits	4 Year
Steer King SKB Series Bronze Bushing King Pin Kits	2 Year
Small Eye Torque Rods (2" ID)	2 Year
Equalizer Beams	1 Year
LP50/KT50 Series for Hendrickson HN®/Haulmaax®	1 Year
MS99 Series Gripper Pads and Rollers	No Warranty
