

Dometic and VitriFrigo Mobile Refrigerators:

- Are available with installation kits for most heavy duty truck make/model applications
- Are designed specifically for heavy duty trucks and are not sold through retail stores
- Offer drivers a convenient way to keep food, beverages and perishables cold and fresh while on the road

Product Highlights – Dometic

CRX Series

- **Patented Double-Lock Mechanism On Door:** Secures the top and bottom of the door - keeping it closed while driving
- **1.9 Cubic Feet Interior:** Offers plenty of room to store food and beverages
- **Stainless Steel Fittings:** Resistant to corrosion
- **Recessed Door Grip:** Provides a non-protruding door grip that gives a sleek look to your vehicle cab
- **Removable Freezer:** Allows the interior storage area to be partitioned between freezer and refrigerator or completely removed so interior storage can be ALL refrigerator or ALL freezer (determined by the selected temperature)
- **Electronic Controls:** Control panel with LED light for interior illumination is located just inside the door on the left side; panel houses push button switches for Power ON/OFF and Temperature Settings; control panel also has LED indicator lights for Power, Errors and Cooling Performance
- **NTC Thermistor:** The Negative Temperature Coefficient (NTC) - Thermistor is an incredibly accurate temperature sensor – ensuring correct temperature readings and error alerts, if there is an issue. NTC is easily accessible for servicing.

- **Extremely Quiet Running:** Speed controlled compressor increases efficiency and allows refrigerator to run quietly once desired temperature setting is reached
- **Cooling System Durability:** Cooling system – tube and fin condenser with bigger fan provides greater cooling performance; compressor mounting plate is foamed in place allowing all components to have a direct and solid mounting to the cabinet

NRX Series

Experience the future of refrigeration with Dometic's NRX Series, where cutting-edge modularity meets sleek style and unmatched durability. Elevate your on the road experience with a fridge that goes beyond expectations.

- **Modular Transformation:** NRX50T converts to full refrigerator, full freezer, or refrigerator with freezer for cargo versatility in semi-trucks
- **Modern Design:** Features a refreshed interior and frameless door design with bottom and upper shelves, adding a touch of sophistication to the cabin
- **Extreme Durability:** Built tough with the AMV20JZT Compressor.
- **Energy Efficiency:** Improved energy efficiency keeps you powered up on the go
- **Easy Installation:** Straightforward setup, enhancing convenience on the road
- **Peace of Mind:** Comes with a 3-Year Warranty

Product Highlights – Vitrifrigo

Designed and entirely made in Italy, Vitrifrigo truck refrigerators and freezers provide a modern and high-performance product for your vehicle.

Vitrifrigo's refrigerators excels in practicality and functionality, offering several notable features:

- 12 VDC compressor driven combo refrigerator / freezer
- 40W power consumption
- Run time is approximately 50% in 25°C (77°F) ambient and internal temperature of 2.5°C (36.5°F)
- Insulation is high density, CFC-free, polyurethane foam
- Exterior is galvanized steel
- Door is constructed with galvanized steel front for durability and includes replaceable gloss black panel
- Door latch assures positive closure with incorporated air vent for quick re-entry
- Storage area is white thermoformed plastic for easy cleaning
- Interior LED light is activated by motion sensor
- Adjustable electromechanical temperature control
- Low voltage and overvoltage protection
